Tips from this project

If you want to get text from image, then use this website https://www.imagetotext.io/ to help you get text.

If you want to convert a pdf form to an image, use this website: https://www.ilovepdf.com.

If you want to edit a PDF document, such as cropping and merging multiple pages, you can actually use Word to edit and even crop it.

You can edit images using Photoshop, but for simple changes you can use this website https://www.canva.com.

When reviewing or fixing bugs, be sure to use the browser's inspect, which will allow you to find and solve problems more efficiently.

When you want to change or edit a section, it is best to open the Navigator and use it, which will make your work more efficient.
